

How To Create A Shaker Box

Materials: The Big Score Board • Construction Cardstock 12"x20" • Red Liner Tape • Scissors • Ruler • Printed Cardstock

Directions

Step 1: To make the base of the box, cut a piece of cardstock 8" x 18.5". Place the short edge of the cardstock against the "box base" (landscape) and score 6 lines every 3 inches at 3", 6", 9", 12", 15" and 18". You will need to shift the cardstock over to continue scoring all lines. (see figure1).

Step 2: To Create the lid, use another piece of cardstock that is 2" x 19.25" and place the short edge of the cardstock against the "box base" (landscape) and score 6 lines every 3 1/8" inches at 3 1/8", 6 1/4", 9 3/8", 12 1/2", 15 5/8" and 18 3/4". You will need to shift the cardstock over to continue scoring all lines.(see figure 1)

Step 3 (lid) : Rotate the cardstock 90° (portrait). Score along the entire length of the cardstock at 1.5" measuring from the left. (see figure 2).

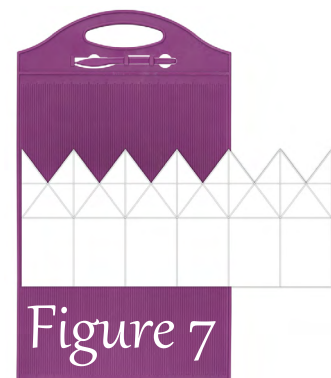

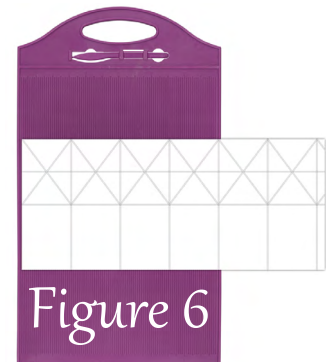

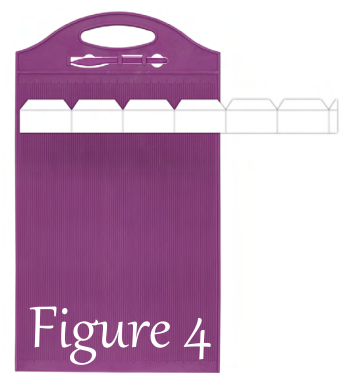

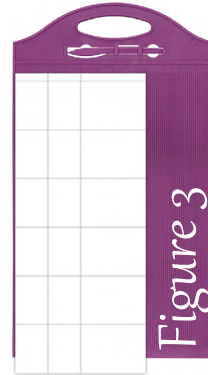

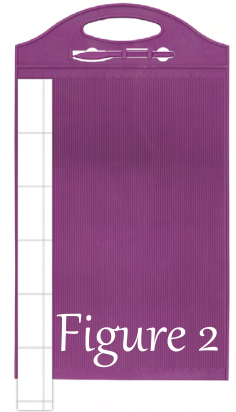

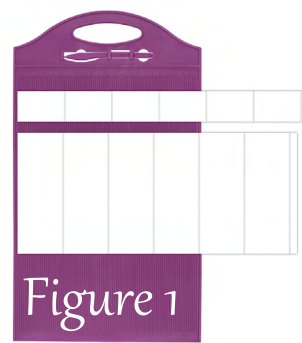

Step 4 (base): Rotate the cardstock 90° (portrait). Score along the entire length of the cardstock at 2" and 4" measuring from the left. (see figure 3).

Step 5 (lid): Fold all the score lines in. Snip narrow triangles as indicated in the photo. (see figure 4).

Step 6 (base): Score up from left to right at a 45° angle in each of the 7 rectangular boxes along the top of the sheet (see figure 5).

Step 7 (base): Score up from right to left at a 45° angle in each of the 6 rectangular boxes along the top of the sheet. In the last small rectangle score 45° down from left to right. (see figure 6).

Step 8 (base): Fold all the score lines in. Cut off the triangles on top as indicated in the photo. (see figure 7).

Step 9 (base): Cut off the triangles leaving 1/2" above the score line. (see figure 8).

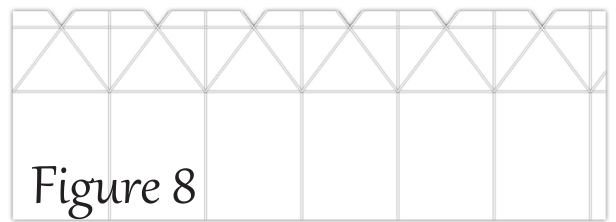

Figure 8

Step 10 (base): To create the lid use a hexagonal shape measuring 3" on each side, add tape on each side of the hexagon shape and on the flap. (see figure 9). Tape one flap at a time. (see figure 10)

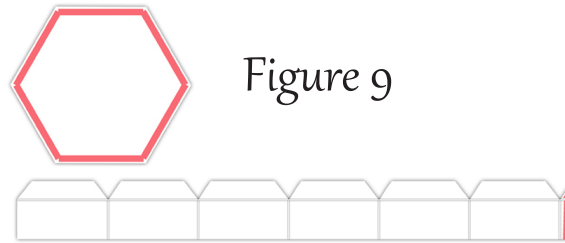

Figure 9

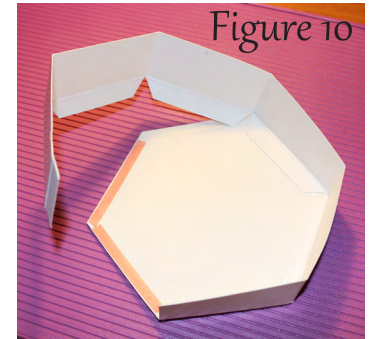

Figure 10

Step 11 (lid): To assemble the base, use a hexagonal shape measuring 3 1/8" on each side, add tape on each side of the hexagon shape and on the left side flap. (see figure 11). First - tape the flap (see figure 12)
Second - add more tape on the flaps for more support (see figure 13)
Third - tape sides one at a time (see figure 14)

Step 12: The box lid should now slide easily. Your box is ready to decorate. (see figure 15).

Step 13: To decorate the base of the box cut 12 pieces (6 at 2 1/2" x 3 1/2", and 6 at 2" x 3"), 12 triangles (6 at 2 1/2" x 2" x 2" and 6 at 2" x 1 1/2" x 1 1/2"). For the lid cut 12 pieces (6 at 2 3/4" x 1" and 6 at 2 1/2" x 3/4") and two hexagonal shapes 1 measuring 3 1/8" each side, and 1 shape measuring 2 1/2" each side of your printed cardstock. (see figure 16). Put these pieces around the base and the lid (see figure 17) [CLICK HERE FOR THE TEMPLAT](#)
